1. Table A, appended, lists in terms of thousands of DMK the planned 1955 production and "results" of all enterprises under the Main Administration for Liquid Fuels in Production Area Chemistry of the East German Ministry for Heavy Industry. Gross production (Bruttpproduktion) as well as production for sale (Warenproduktion) are listed. The results are the sales results less costs of production. 25X1
2. For purposes of comparison, table B gives the same information for 1954. Since the figures contained in table B were compiled by the Main Administration for Liquid Fuels before the end of 1954, these figures are estimates based on production up to a date late in 1954 but preceding the end of the year.
